

**Instructions to participants to guide you in the preparation of your mini-presentation during the breakout sessions on December 9&10:**

- Your talk should be limited to 5 min or less.
- Please prepare 2-3 slides maximum, **using the template which is available on the workshop website**, to answer the following questions:
- What is the science? What will we learn? Describe the experiment.
- Are there technical suggestions/recommendations for LCLS to facilitate your proposed science?
- Please prepare a brief summary of your contribution and recommended scientific directions. These ideas will be used to prepare the workshop report, which will be shared withal of you and the LCLS leadership.
